

# Couplings

For 100 years, Rexnord has provided solutions for couplings. Customers receive the benefits of our experience through a broad line of couplings that are manufactured for quality, reliability and easy maintenance.

Complemented by a team of sales and service specialists, Rexnord delivers the lowest total cost of ownership in the industry. Choose from many brands, like Falk, Steelflex, Thomas and Addax. For any coupling application, Rexnord is your critical link.

## New! Thomas XTSR Disc Couplings

Rexnord introduced its new Thomas XTSR52 and XTSR71 Disc Couplings, featuring a compact size, optimized design and powerful performance.

## Products

### Disc Couplings

Material-flexing couplings with disc elements. Motor, engine and turbine-driven applications.

### Elastomeric Couplings

Non lubricated material-flexing couplings with elastomeric elements. Variety of applications.

### Grid Couplings

Mechanical-flexing couplings with T-Grid design. General purpose applications.

### Fluid Couplings

Fixed-fill fluid couplings. Soft start and torque overload applications.

### Gear Couplings

Mechanical-flexing couplings with triple-crowned teeth. High-speed and high-torque applications.

### Composite Couplings

Lightweight, advanced composite material design. Customized per specific applications.

### Couplings Accessories

Falk Orange Peel Rotating Shaft Guards and backstop assemblies.

### Coupling Service Parts/Kits

A variety of coupling service parts and kits fit to customer requirements.
